PRESENTATION OF PROJECT ON CARE GIVERS OF HANDICAP CHILDREN/ CHRISTMAS PARTY FOR PHYSICALLY CHALLENGED

Project Title: Mordecai Feast/ Christmas party for physically challenged

Place of Execution: Kumba

Councils: Kumba 1, 2 and 3 Council

Direct Beneficiary: 50 Care givers and 200 physically Challenged

Date of Program: 7th and 8th December 2023 and 22nd December 2023

Venue: Vaneillo Hotel Kumba Town and WeCARE Head Office

Background of Project.

WeCARE's vision is drawn from its passion to care for the needed, vulnerable and physically challenged people in the community. After a cross examinations of the needs of children with special need like physically challenged, orphans, mentally handicap etc we came to the conclusion that all is not just food and clothes. We visited an orphanage on needs assessment to plan and they made us to understand that the children have everything but lack tolls to play with. We saw this as a serious need and we started buying them tolls for every Christmas and we jointly celebrate in a Christmas party in our head office yearly and we are in the sixth year of the celebration. Last year during the celebration one of the care givers burst into tears and cries heavily. We followed her up after counseling and realized that the mother was tired of 32

years suffering with the physically challenged girl who basically cannot do anything for, she except the mother assists her. We had to talk with her, counseled her and started following her up particularly. We drew the inspiration to have a psychosocial support meeting where the care givers share experience, have counseling sessions and a dinner together before the main day of the orphans Christmas party. This feast will last for two days, these care givers live their homes and meet at the hotel, come out of their normal stressful condition and spend some time in extra environment than before.

Goals: Psychosocial, material and income generational supports for the care givers of physically and mentally challenges children.

Objectives:

- 1) To bring together 50 care givers of physically handicapped children for psychosocial support
- 2) To have a feast called Mordecai Feast with 50 care givers of physically and mentally challenged children.
- 3) To carryout economic empowerment of these 50 caregivers so they can continue to take care of these children.
- 4) To share experience with each other on the methods of care of these children.
- 5) To carry out needs assessment of these children through their care givers to better prepare for their Christmas party.

Activities

- 1) Planning meeting toward the feast
- 2) Arrangement with counselors to facilitate the meeting- Psycho social, Economic and spiritual counselors.
- 3) Invitation of the care givers
- 4) Preparation of the site and arrangement of the feast.
